Induction Report for First-Year Engineering Students at Atharva College of Engineering
(2023-24)

Date: 27th October 2023

The First-Year Engineering Student Induction Program for the academic year 2023-24 was conducted at Atharva College of Engineering, adhering to the guidelines and recommendations provided by the All India Council for Technical Education (AICTE).

This report summarizes the activities of the program, which aims to introduce our fresh batch of students to the diverse world of creative arts, cultural arts, and literary activities.

Several activities were organized, which were categorized into following segments.

1) Creative Arts

- Painting
- Rangoli

2) Cultural Arts

- Dance
- Singing

3) Literary Activity

- Poetry

Creative Arts - Painting:

As part of the induction program, HAS department has organized a creative Arts activity featuring painting and Rangoli. Students from all branches of Engineering participated in this. Under the guidance of Prof. Bhagyashree Gaikwad and Prof. Aparna Shukla, students showcased their artistic skills through various forms of painting, including Mandala arts, Doodling, Perspective drawing, Pencil sketching, Caricature drawing, Cartooning, Architectural drawing, thumb painting, and Rangoli designs.

It was heartening to witness the enthusiasm and creativity displayed by our budding artists.

Creative Arts - Rangoli:

Rangoli making is a beautiful and integral part of India's tradition and culture. During the FE induction program, six groups of first-year students from different branches came together to exhibit their talents and creativity.

This Rangoli activity not only celebrated our rich cultural heritage but also showcased the unity and creative potential of our students. It was a day where colors, patterns, and enthusiasm came together harmoniously, creating a memorable and vibrant experience, which added great value to our FE induction program.

We thank our Head of Department, Dr. Ritu Sharma, for inspiring and encouraging the participants. Prof. Priyanka Malgaonkar and Prof. Dipa Patel did an excellent job coordinating the Rangoli activity.

Cultural Arts - Dance:

The cultural arts segment of the induction program provided a platform for students to express their talents in dance. These budding dancers displayed their skills through various dance forms, from classical to contemporary. The stage came alive with energetic performances that were a testament to their dedication and enthusiasm.

It was evident that our students have immense potential and a passion for the performing arts. We extend our appreciation to our Head of Department, Dr. Ritu Sharma, for inspiring and motivating the participants. The coordinator Prof. Divya Acharya of the dance activity played a crucial role in its success, ensuring a seamless and memorable experience for all.

Cultural Arts - Singing:

The singing segment of our First-Year Engineering Student Induction Program was a harmonious and melodious journey. Students from various backgrounds and vocal abilities came together to showcase their musical talents, enriching our induction program.

These young singers presented a diverse range of songs, from classical melodies to contemporary tunes. Their performances resonated with passion and showcased their vocal prowess, leaving a profound impact on the audience. Faculty members also took part and showcased their talent of singing and enjoyed with students.

We extend our gratitude to Dr. Ritu Sharma, our Head of Department, for her support and encouragement to the participants. The coordinator Kamaljit Kaur, played a good role in its success, ensuring that it was a memorable and enjoyable addition to our FE induction program.

Outcome:

The First-Year Engineering Student Induction Program served as a platform for our students to not only showcase their talents but also to connect with their peers and mentors. It helped in building a sense of community among the newcomers and boosted their confidence. The program aimed to nurture their social skills, communication, and collaboration abilities, which are essential for their academic and personal development.

We extend our gratitude to the AICTE for providing valuable guidelines, and we thank all the mentors, coordinators, and faculty members who dedicated their time and expertise to make this induction program a success.

In conclusion, the FE Student Induction Program 2023-24 at Atharva College of Engineering was a remarkable start to our students' academic journey, encouraging them to explore their creative potential and fostering a spirit of unity and learning. We look forward to witnessing their continued growth and success in the years to come.
