

ATHARVA EDUCATIONAL TRUST'S
ATHARVA COLLEGE OF ENGINEERING

(Approved by AICTE, Recognized by Government of Maharashtra
& Affiliated to University of Mumbai - Estd. 1999 - 2000)

Date : 16th December 2022.

Class: EXTC -1

Time: 2.00 - 3.00 pm

Faculty Involved : Deepika Panchal

Activity conducted : Newspaper Reading

News develops every day. The beauty of the newspaper in the classroom is that it is also fresh each day. It comes to you with the latest news and information and, unlike other media, comes beautifully written with lots of detail. Stories unfold as reporters unearth more information to reconstruct what happened. There is truly no better record of the world's happenings than a newspaper.

The newspaper was used to enhance skills in reading, writing, listening, speaking, math, social studies and science. Critical thinking is the natural outgrowth of using a newspaper to learn. Unlike textbooks, which are several years outdated by the time they get into students' hands, the newspaper comes alive with information. The newspaper expands the curriculum with an unlimited amount of information to use as background for learning activities.

These activities helped students improve their skills in reading and writing. These skills are among the ones they will practice: how to find the main idea, how to increase vocabulary, how to compare readings, how to form sentences, how to ask a good question and how to write a great summary. In all 38 students attended the activity.
