We know that you are wondering how to go about doing the internship.

Where to begin and what steps to take next. Do not worry! We got it covered for you.

We would like to highlight here that there are 3 stakeholders - You (Student), Industry Mentor and Academic Guide. We provide Industry mentor, who will be available throughout the internship project duration to provide guidance to you, via Digital Discussion Room, to carry out the internship project.

Click on LAUNCH button on the course to access your internship.

To familiarize you with the complete internship lifecycle, we have a WELCOME KIT in place. Welcome Kit consists of 12 videos which will help you understand all the aspects of the internship.

Please go through all the videos before you start working on the internship. It will give you a better idea and clear almost all the doubts you might have.

Immediate next step would be taking up a general aptitude test. Test will help you baseline your knowledge, provide you an opportunity to reflect and work on areas for improvement. Subsequently, please refer to the Industry Project to understand the project objective, guidelines to go about doing the project and expected project outcome.

You may then refer to the self-learning reference links shared and start learning. These learning references cover the concepts / topics required for you to do the internship. Please give the mentor at least 24 hours for responding to your queries posted in the DDR.

It is important to highlight to you that Industry mentor will be AVAILABLE ONLY ON WORKING DAYS. Way it works is exactly same as how an internship works if you do it physically within the corporate environment. Mentors are not expected to be available on weekends or holidays. They will spend an hour or so, guiding you / answering your queries during the working days. Mentors will establish their availability and inform the students in the Digital Discussion Room and, it may vary from project to project. Project duration of 10 days for RIO-45, 30 days for RIO-125 and 45 days for RIO-210 is excluding the weekends and holidays.

Please do not forget to capture details of the learnings and the progress you make in the project along with efforts in the daily activity report template and submit for industry mentors feedback.

Once you submit the project work in our platform, the project report, daily activity reports, Industry mentors feedback, Project test results, etc., will be available to the academic guide identified by you through the academic guide portal (link will be shared with your academic guide shortly). Academic guide can use the above details to evaluate your project work and carry out viva voice. Compulsory Expectations from you during your work at RedCarpet

This is extremely important - We are expecting that the scholarship stipend is more than sufficient to cover all costs.

- Please make sure you have already installed [Google Device Policy app](#) on your phone beforehand. Its needed for encrypted secure email services. It allows us to wipe your phone if it gets stolen to avoid leakage of sensitive company data.
- Install [slack](#) and [Google Meet/Hangouts](#) on your mobile (you will get the login details when you join). We expect you to respond to emails and messages at all times.
- **Operating System - Windows 8 is NOT ALLOWED.** There are too many problems with packages. Windows 10, Mac OSX and Linux are allowed. *(We recommend Linux)*
 - **If you are using Windows, then you are mandatorily required to use WSL (Windows Subsystem for Linux) for any work. We will not permit any other setup on Windows. Please follow instructions here <https://github.com/RedCarpetUp/ThisIsTheWay/blob/main/code/wsl.md>**
- **Hardware** - The most important change you can make to your laptop is to get a **SSD (Solid State Hard Drive)**. It will boost your performance by **10X**. We **HIGHLY RECOMMEND** you buy a [250 GB Kingson SSD](#) (2,500 INR) or [Crucial MX500](#) series (500 GB for 5500 INR). It can mean the difference between a highly successful scholarship and being on the bottom tier.
- **IMPORTANT:** You will need to have **high-speed** internet at your home/hostel/PG throughout the duration of the scholarship. You will have internet enabled **continuously** on both your phone & laptop for the duration of your scholarship.
 - The Internet speed must be enough to allow high quality videoconferencing. This is mandatory and cannot be excused
 - You will make sure that you can do **high quality audio** and **video** calls. Remember that 99% of all work will happen on video during work-from-home. You can use your mobile phone for video calls. Using a laptop for video calls is not compulsory. However, it is important that we can hear & see you. Please ensure this to avoid frustration and conflict with your other colleagues
 - We recommend that you use a **noise-cancelling bluetooth headset. DO NOT USE LAPTOP/PHONE MIC.** (e.g. OPPO Enco M31 is quite popular in our team)
 - Research [shows](#) that - by not having high quality audio, makes scientists/engineers/professionals to be perceived as less smarter than they actually are.
- You also agree to not misuse office infrastructure and resources for any in-discretionary activity (like torrents, bitcoin mining, downloading objectionable material, etc)

Race, Religion, Gender and LGBTQ tolerance

- We are an equal opportunity place. We respect and welcome people from all races, religions, non-binary gender or of LGBTQ sexual orientation. However, as a matter of policy, we will not allow or encourage any kind of religious or sexual activity within the office premises or communication channels (email, chat, slack, telegram/whatsapp groups).
- We maintain a zero tolerance policy for any kind of racist, regional/state-wise, religious, gender or sexual harassment in the form of language/behavior/jokes and will be grounds for immediate dismissal. Refrain from cracking jokes on each other in general, even if you think they are "friendly jokes".
- We also welcome you to share your preferred pronouns (he/him, she/her, they/them) on your slack profile.

Work culture at RedCarpet

We highly recommend you read <https://github.com/RedCarpetUp/ThisIsTheWay/>. RedCarpet is one of the few companies that makes its work culture public.

- *Always reply* - Remember we are an all-remote work culture. We cant see you. If you dont reply on slack, we dont know if you ignored us. Please reply.
- *Ownership* - If you are given a task (which might be as trivial as sending an email), make sure you do it... or you come and tell us that you were not able to do it. Dont silently ignore it (or think someone will come and ask you like a teacher). You are now a valuable member of one of the most disruptive startups in India. Take responsibility.
- *Hands on & Low Ego* - As founders, we have still swept floors and cleaned generators using mop cloths. Anything from writing testcases to making phone calls is your job. Make it happen. We dont believe in caste system around work.
- *Reading is much harder than writing* - it is very easy to write code/proposals/designs. It is very hard to read someone else's code/proposals/designs. At RedCarpet we recognize that a lot of poor decisions that are made is because of this problem. If you do something, make sure you have done your research and are able to justify
- *Jugaad* - we encourage jugaad. Dont make things more complex than they need to be, just because they sound cool. Dont use Tensorflow, when you can get the same thing done using vanilla python.
- *Be a Honeybadger* - Never give up.

On completion of scholarship: Once you complete the scholarship, you will receive one of three certificates:

- *Full term scholarship:* given to those that complete full term of scholarship and have satisfactory performance. This will carry commendation by RedCarpet team.
- *Short term training:* given to those that leave early (before completing the agreed tenure of scholarship) or are let go. Will not carry any comments on "performance" or commendation.
- *Exceptional performance at RedCarpet with distinction:* Personally signed by the founders. Only for 1% of scholars every year. The reputation of this certificate has generally led to 100% placement in jobs after the scholarship (either at RedCarpet itself or elsewhere).

Important note for scholarship report - Please make sure no details, screenshots, numbers, statistics of the work you have done here is included as part of the project/scholarship report. As mentioned above, this is covered under non-disclosure agreements. Please talk to us when you are making a report and we will help compose it in the right way. **Failure to comply will result in legal action.**

Please get back to us on email confirming your acceptance of this scholarship. Please consider this as an **Official Offer Letter**.

Dear Sachet Kanchugar ,

Greetings from Tata Consultancy Services!

We are delighted to have you sign up for the internship project.

We know that you are wondering how to go about doing the internship.

Where to begin and what steps to take next. Do not worry! We got it covered for you.

We would like to highlight here that there are 3 stakeholders - You (Student), Industry Mentor and Academic Guide. We provide Industry mentor, who will be available throughout the internship project duration to provide guidance to you, via Digital Discussion Room, to carry out the internship project.

INTERNSHIP - Chosen by you - %@@@InternshipName%@@@

INDUSTRY MENTOR(s) - Assigned by us - S Divya

To access your internship and community, go to MY DASHBOARD. Once you are in your dashboard, under MY PRODUCTS you will be able to see the course and community of your internship.

Click on LAUNCH button on the course to access your internship.

To familiarize you with the complete internship lifecycle, we have a WELCOME KIT in place. Welcome Kit consists of 12 videos which will help you understand all the aspects of the internship.

Please go through all the videos before you start working on the internship. It will give you a better idea and clear almost all the doubts you might have.

Immediate next step would be taking up a general aptitude test. Test will help you baseline your knowledge, provide you an opportunity to reflect and work on areas for improvement. Subsequently, please refer to the Industry Project to understand the project objective, guidelines to go about doing the project and expected project outcome.

You may then refer to the self-learning reference links shared and start learning. These learning references cover the concepts / topics required for you to do the internship. Please check the Digital Discussion Room / Community in which you can post your queries to Industry mentor and get guidance. Other students doing the internship will also be members of the Digital Discussion Room. We urge you to introduce yourself to your peers and interact with mentor for guidance.

Please give the mentor at least 24 hours for responding to your queries posted in the DDR.

It is important to highlight to you that Industry mentor will be AVAILABLE ONLY ON WORKING DAYS. Way it works is exactly same as how an internship works if you do it physically within the corporate environment. Mentors are not expected to be available on weekends or holidays. They will spend an hour or so, guiding you / answering your queries during the working days. Mentors will establish their availability and inform the students in the Digital Discussion Room and, it may vary from project to project. Project duration of 10 days for RIO-45, 30 days for RIO-125 and 45 days for RIO-210 is excluding the weekends and holidays.

Please do not forget to capture details of the learnings and the progress you make in the project along with efforts in the daily activity report template and submit for industry mentors feedback.

Once you submit the project work in our platform, the project report, daily activity reports, Industry mentors feedback, Project test results, etc., will be available to the academic guide identified by you through the academic guide portal (link will be shared with your academic guide shortly). Academic guide can use the above details to evaluate your project work and carry out viva voice. You are then required to submit the evaluation report in the template that you will be supplied with, in our platform as the last step to complete the internship.

We are also attaching the user help manual. Please refer to the manual in case any clarity is required in the internship process.

TO WHOMSOEVER IT MAY CONCERN

This is to certify that the project work and report entitled “**SMARTPHONE BASED PLANT DISEASE DETECTION AND CARE**” embodies the original work of **Mr. Adithya Gangadhar Shetty** from **Atharva College of Engineering** (Computer Engineering) at LinuxWorld Informatics Pvt Ltd.

The duration of the project undergone as mentioned above, under the mentorship of **Mr. Vimal Daga**, Technical Head was from **22nd May, 2021 to 17th August, 2021**

Gist About the Project:

Abstract: Agricultural machine learning, for instance, is not a mysterious trick or magic, but a set of well-defined models that collect specific data and apply specific algorithms to achieve expected results. Mostly, machine learning techniques are used in crop management processes, following with farming conditions management and livestock management.

At present, machine learning solutions tackle individual problems, but with further integration of automated data recording, data analysis, machine learning, and decision-making into an interconnected system, farming practices would change into with the so-called knowledge-based agriculture that would be able to increase production levels and products quality. Crop diseases are a major threat to food security, but their rapid identification remains difficult in many parts of the world due to the lack of the necessary infrastructure.

Problem Statement: Aim is to detect the diseased part by finding the optimum way with minimum cost. In this problem he have considered fundamental 13 categories of the plant leaf disease which are for Apple, Blueberry, Grape, Corn, Cherry, Potato, Peach, Pepper Bell, Tomato, Strawberry, Raspberry, Soybean and Orange.

Overall, the project will detect 38 types of plant leaf diseases, provide a solution and information about the disease. Developing a Smartphone based detection solution and a website for info display. Dataset consists of 87000 images of plant disease which will be used for training the ML model.

Test dataset has 33 images for testing purposes.

Technologies Used:

- **Android based App** used for detection of plant leaf disease.
- The app developed using **Flutter framework** of Google using Nemorphic Design.
- The app uses **Firestore** as database for retrieval of brief information about disease detected and providing a solution.
- **Deep Learning** used for training the ML model using the dataset provided.

Conclusion:

Through the application of Machine Learning (ML), growers can access increasingly sophisticated data and analytics tools, which enables better decisions, improved efficiencies, and reduced waste in food and biofuel production, all while minimizing negative environmental consequence .

ML-driven image processing allows farmers to rely upon digital tools to recognize leaf diseases and to determine which crops are healthy and which ones are infested with disease caused by fungi, bacteria, or viruses.

Digital applications that can evaluate crops for disease can also provide an accurate disease diagnosis and recommend an optimal treatment plan.

Project will help farmers avoid settling on a one-size-fits-all solution that not only fails to address a specific disease, but may inadvertently cause undesirable side effects.

Future Scope:

The proposed work summarizes multiple studies regarding plant disease automation and identification through different ML methods. The proposed manuscript also shows well-acceptance of a range of CV methods in this domain, making it a wide area of research to be explored in the near future. Some points are summarized in the following paragraphs, which may help to improve and enhance the current state-of-the-art and give researchers some potential ideas to further explore the field in the future.

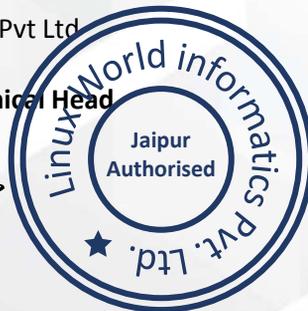

- **Disease Stage Identification.** Disease stage identification is one of the main areas to be explored regarding plant disease identification. Each disease has several stages
- **Quantification of a Disease.** Another exciting area to be explored is the quantification of a particular disease. Although there has been much work done in this field, very few researchers have identified the extent of the damage caused by the disease.
- **Mobile and Online Applications.** Literature reported several solutions regarding applications of disease identification. However, few of the portals and mobile applications are publicly available and accessible online. Some of these applications are Assess Software and Leaf Doctor, which are publicly available for use.

We wish him all the success for his future

Your Internship

Your internship with The Entrepreneurship Network is essentially governed by The Entrepreneurship Network Policies, in conjunction with this Manual. The following section provides general information regarding your perks, conditions and our expectations of you.

Perks

After successful completion of your internship with TEN, you'll be entitled to receive your requisites (i.e., LOC and LOR) based on the criterion mentioned while joining.

Hours of Work

We have flexible working hours. Your hours of work will depend on business needs and the requirements of the work you are assigned. Your Manager will work with you to establish your standard hours of work and break times.

The Entrepreneurship Network adopts a common-sense approach to managing work hours.

Lateness for work

Any absence or late work due to illness, injury or any other reason, and the expected duration of leave must be personally reported to your supervisor as soon as practicable (and prior to your normal starting time wherever possible). If you are unable to do this personally, you are requested to ask someone to telephone on your behalf.

Subsequent to this, you must keep your Manager informed of your progress.

It is essential that you are ready to commence work at your normal commencement time as other interns and the business depend upon you and your contribution.

Resignation Policy

Our Resignation policy presents guidelines for handling resignations at our company. Voluntary separations happen occasionally, and we want to ensure that our company appropriately handles them and ensures smooth running workplace.

An intern is obliged to give advance notice before resigning. An intern will have to announce intent to resign to their immediate senior at least a week in advance. It is required to ensure efficiency and smooth operations of our workplace.

Work from Home

All the internships provided are work from home. From ease of your home, you can learn and gain experience with TEN.

The Noise Factor

Try to avoid arguments with co-workers and respect people's busy periods or meeting times. Or if someone is engrossed in something at their work or there are more than two people meeting with someone, it usually means they are busy. Try to talk politely when you are on the call and respect others working with you.

4. Excessive private use, including mass mailing, "reply to all" etc. that are not part of the person's duties, is not permitted.

Recruitment

Policy

TEN recognises a robust and professional approach to recruitment and selection helps us to attract and appoint individuals with the necessary skills and attributes to fulfil our aims and support our business goals.

All appointments should be made on the Principle of Merit, compliance with all relevant Federal and State Legislation and adherence to this policy and related processes.

Our Business recruits people via the following methods:

- Internal
- External
- Intern Referred

Procedure

1. Create a simple position description for the job covering key activities, tasks, skills required, expectations, deliverables and safety considerations. When advertising, avoid discriminatory language e.g. young person. Target the requirements of the job e.g. we seek an energetic person.
2. The recruitment process may include some or all of these: an application form, interviews, practical testing, and reference checks. If undertaking an interview ensure there are no possible discriminatory requests for information
3. Give the successful candidate an Offer letter. This includes the nature of employment e.g. permanent, part time, internship, casual. The contract should include a welcome note and start details.
4. Once the candidate has accepted, contact the unsuccessful candidates as a matter of courtesy.

Equal Employment Opportunity (EEO) & Anti Bullying

Policy

This policy applies to all staff including contractors and covers all work-related functions and activities including external training courses sponsored by The Entrepreneurship Network.

It also applies for all recruitment, selection and promotion decisions.

The objective of The Entrepreneurship Network's Equal Opportunity Policy is to improve business success by:

- attracting and retaining the best possible interns
- providing a safe, respectful and flexible work environment
- delivering our services in a safe, respectful and reasonably flexible way

Discrimination, Sexual Harassment and Bullying

The Entrepreneurship Network is committed to providing a workplace free from discrimination, sexual harassment and bullying. Behaviour that constitutes discrimination, sexual harassment or bullying will not be tolerated and will lead to action being taken, which may include dismissal.

For the purposes of this policy, the following definitions apply

PRINCIPAL
ATHARVA COLLEGE OF ENGINEERING
MUMBAI

THE ENTREPRENEURSHIP NETWORK

Equal Employment Opportunity (EEO) & Anti Bullying

Discrimination:

Direct discrimination occurs when someone is treated unfavourably because of a personal characteristic.

Indirect Discrimination occurs when a rule seems neutral, but has a discriminatory impact on certain people. For example a minimum height requirement of 6 foot for a particular job might be applied equally to men and women, but would indirectly discriminate on the basis of sex, as women tend to be shorter than men.

Sexual harassment includes unwelcome conduct of a sexual nature in circumstances in which it could reasonably be expected to make a person feel offended, humiliated or intimidated a reasonable person, having regard to all the circumstances, would have anticipated that the person harassed would be offended, humiliated or intimidated.

Workplace bullying may include behaviour that is directed toward an intern, or group of interns, that creates a risk to health and safety e.g. physical and/or verbal abuse, excluding or isolating individuals; or giving impossible tasks.

The Entrepreneurship Network provides equal opportunity in internship to people without discrimination based on a personal characteristic.

Any intern found to have contravened this policy will be subject to disciplinary action, which may include dismissal as outlined in the complaint procedure below.

Interns must report any behaviour that constitutes sexual harassment, bullying or discrimination to their manager.

Interns will not be victimised or treated unfairly for raising an issue or making a complaint.

Reasonable adjustments

Reasonable adjustments are changes that allow people with a disability to work safely and productively.

The Entrepreneurship Network will make reasonable adjustments for a person with a disability who:

- applies for a job, is offered internship, or is an intern, and
- requires the adjustments in order to participate in the recruitment process or perform the genuine and reasonable requirements of the job.

Examples of reasonable adjustments can include:

- reviewing and, if necessary, adjusting the performance requirements of the job
- arranging flexibility in work hours (see 'flexible work arrangements')
- approving more regular breaks for people with chronic pain or fatigue

When thinking about reasonable adjustments The Entrepreneurship Network will weigh up the need for change with the expense or effort involved in making it. If making the adjustment means a very high cost or great disruption to the workplace, it is not likely to be reasonable.

In some cases The Entrepreneurship Network can discriminate on the basis of disability, if:

- the adjustments needed are not reasonable, or
- the person with the disability could not perform the genuine and reasonable requirements of the job even if the adjustments were made.

Procedure: To make a complaint

If you believe you are being, or have been, discriminated against, sexually harassed or bullied, you should follow this procedure.

1. Tell the offender the behaviour is offensive, unwelcome, and against business policy and should stop (only if you feel comfortable enough to approach them directly, otherwise speak to your manager). Keep a written record of the incident(s).
2. If the unwelcome behaviour continues, contact your supervisor or manager for support.
3. If this is inappropriate, you feel uncomfortable, or the behaviour persists, contact another relevant senior manager.

Interns should feel confident that any complaint they make is to be treated as confidential as far as possible.

Procedure: To receive a complaint

When a manager receives a complaint or becomes aware of an incident that may contravene The Entrepreneurship Network EEO Policies, they should follow this procedure.

1. Listen to the complaint seriously and treat the complaint confidentially. Allow the complainant to bring another person to the interview if they choose to.
2. Ask the complainant for the full story, including what happened, step by step.
3. Take notes, using the complainant's own words.
4. Ask the complainant to check your notes to ensure your record of the conversation is accurate.
5. Explain and agree on the next action with the complainant.
6. If investigation is not requested (and the manager is satisfied that the conduct complained is not in breach of The Entrepreneurship Network EEO policies) then the manager should:
 - act promptly
 - maintain confidentiality
 - pass any notes on to the manager's manager

Procedure: To investigate a complaint

When a manager investigates a complaint, they should follow this procedure.

1. Do not assume guilt
2. Advise on the potential outcomes of the investigation if the allegations are substantiated
3. Interview all directly concerned, separately
4. Interview witnesses, separately
5. Keep records of interviews and the investigation
6. Interview the alleged harasser, separately and confidentially and let the alleged harasser know exactly of what they are being accused. Give them a chance to respond to the accusation. Make it clear they do not have to answer any questions, however, the manager will still make a decision regardless.
7. Listen carefully and record details
8. Ensure confidentiality, minimise disclosure
9. Decide on appropriate action based on investigation and evidence collected
10. Check to ensure the action meets the needs of the complainant and The Entrepreneurship Network
11. If resolution is not immediately possible, refer the complainant to more senior management. If the resolution needs a more senior manager's authority, refer the complainant to senior manager.
12. Discuss any outcomes affecting the complainant with them to make sure where appropriate you meet their needs.

Possible outcomes

If after investigation management finds the complaint is justified, management will discuss with the complainant the appropriate outcomes which may include:

- disciplinary action to be taken against the perpetrator (counselling, warning or dismissal)
- staff training
- counselling for the complainant
- an apology (the particulars of such an apology to be agreed between all involved)

Leave

General Leave Policy

Unless specified otherwise, interns referred to in this policy mean permanent full-time or part-time interns.

All interns are entitled to leave in accordance with the relevant awards or agreements and statutory provisions. Where the entitlements or practices in this document conflict, the applicable award, workplace agreement, internship contract or internship law takes precedence.

All planned leave has to be mutually agreed, and take into account workloads and the intern's needs. Leave must be approved in advance, except when the intern can't anticipate the absence. Any documents regarding leave will be kept on the intern's personnel file.

Performance Management

Policy

The purpose of performance management is to improve performance. It is an ongoing process. It should include informal and formal review. We encourage a two-way process, that is, interns can also give management feedback on performance.

All interns will undergo a formal performance review with their immediate managers.

THE ENTREPRENEURSHIP NETWORK

Performance Improvement

Policy

Where warranted The Entrepreneurship Network will use improvement processes to improve performance. Should such improvement processes be unsuccessful in improving an intern's performance, The Entrepreneurship Network may decide to end an intern's internship. Depending on the circumstances, performance improvement action may include verbal or written warnings, counselling or retraining.

The Entrepreneurship Network requires a minimum standard of conduct and performance which will be made clear to interns in management appraisals. If an intern does not meet this standard, The Entrepreneurship Network will take appropriate corrective action, such as training. Formal performance improvement procedures will generally only start when other corrective action fails.

If an intern deliberately breaches business policy or procedure, or engages in misconduct, The Entrepreneurship Network may start improvement procedures, or, in cases of serious misconduct or breach of policy, may dismiss an intern.

Each intern must understand their responsibilities, be counselled and given the opportunity to reach the standards expected of them. The Entrepreneurship Network will give an intern the opportunity to defend themselves before management takes further action.

Note: If interns have a disability that requires reasonable adjustments to be made to the job to allow you to work safely and productively, they should raise this with their manager. The Entrepreneurship Network will only refuse such requests on reasonable business grounds.

THE ENTREPRENEURSHIP NETWORK

Performance Improvement

Procedure

1. The Entrepreneurship Network will advise the intern of any shortfall in their performance, and give them an opportunity to respond.
2. Once they respond, the manager will consider their response and decide if performance improvement action should be taken. The Entrepreneurship Network will provide support such as training where appropriate.
3. If the intern is given a verbal warning, the manager should make a note of it, date it and sign it.
4. The manager will advise the intern in clear terms what they see as the performance problem or the unacceptable conduct. To highlight the deficiency they should use specific examples, and refer to the correct policy or procedure.
5. The manager will allow the intern to respond before making a decision and consider the intern's responses. The intern may have a support person present at such meetings.
6. The manager will decide if more action is needed.
7. If a written warning is to follow, the manager is to:
 - document it and give the intern a copy
 - give the intern the opportunity (and their support person the opportunity) to sign the warning
 - keep a copy on file
8. The warning must clearly define:
 - the deficiency
 - a clear explanation of the expected standard
 - by when the intern needs to achieve it
 - how the business will help the intern achieve the improvement required
 - consequences of failing to improve
9. The manager concerned will keep a record of all meetings, training and/or coaching given and a summary of discussions, and put a copy on the intern's personnel file. This should include date and time of discussion.
10. They will continue to support the intern and note the support they give, for example, training or counselling.
11. If the intern's performance or conduct doesn't improve, the manager will give the intern a final written warning and follow steps 4–10 above. This document needs to warn the intern in clear terms. The Entrepreneurship Network will terminate their internship if there is not enough improvement, and a sustained improvement in, their performance.

Note: some circumstances justify going straight to a second or final warning.

Gross or Serious Misconduct

Summary (instant) dismissal for gross or very serious misconduct is possible (depending on the facts involved). Management should seek advice before taking this step.

Procedure

1. The manager is to investigate the alleged offence thoroughly, including talking to witnesses, if any.
2. The manager should ask the intern for their response to the allegation (taking notes of this discussion) and allow them to have representation. The manager should also have a witness present. The manager shall give genuine consideration to the intern's response and circumstances.
3. If still appropriate, following a thorough investigation, the manager can terminate/dismiss the intern.
4. The manager should keep a file of all evidence collected and action taken in these circumstances.
5. The Entrepreneurship Network will send the intern a letter of termination noting brief details.

Grievance Complaints

Policy

The Entrepreneurship Network supports the right of every intern to lodge a grievance with their manager if they believe a decision, behaviour or action affecting their internship is unfair. An intern may raise a grievance about any performance improvement action taken against them.

We aim to resolve problems and grievances promptly and as close to the source as possible. When necessary, The Entrepreneurship Network will escalate a grievance to the next higher level of authority for more discussion and resolution, and continue escalating it to the level above until it is resolved.

Managers will do their utmost to action grievances objectively, discreetly and promptly. Be aware that grievances that are misconceived, vexatious, and lacking substance may result in disciplinary action being taken against the intern lodging the grievance.

Procedure

1. The intern should try to resolve the grievance as close to the source as possible. This can be informal and verbal. At this stage, every possible effort should be made to settle a grievance before the formal grievance process starts. If the matter still can't be resolved, the process continues and becomes formal.
2. To start the formal grievance the complainants must fully describe their grievance in writing, with dates wherever possible and how they have already tried to settle the grievance.
3. The person(s) against whom the grievance/complaint is made should be given the full details of the allegation(s) against them. They should have the opportunity and a reasonable time to respond before the process continues.
4. If the grievance still can't be resolved, refer the matter to the most senior manager for consideration and a final decision. A grievance taken to this level must be in writing from the intern.

Conflict of Interest

Policy

Conflict of interest arises whenever the personal, professional or business interests of an intern are potentially at odds with the best interests of The Entrepreneurship Network.

All interns are required to act in good faith towards The Entrepreneurship Network. Interns need to be aware of the potential for a conflict of interest to arise and should always act in the best interests of The Entrepreneurship Network.

As individuals, interns may have private interests that from time to time conflict, or appear to conflict, with their internship with The Entrepreneurship Network. Interns should aim to avoid being put in a situation where there may be a conflict between the interests of The Entrepreneurship Network and their own personal or professional interests, or those of relatives or friends. Where such a conflict occurs (or is perceived to occur), the interests of The Entrepreneurship Network will be balanced against the interests of the staff member and, unless exceptional circumstances exist, resolved in favour of The Entrepreneurship Network.

It is impossible to define all potential areas of conflict of interest. If an intern is in doubt if a conflict exists, they should raise the matter with their manager.

PRINCIPAL
ATHARVA COLLEGE OF ENGINEERING

THE ENTREPRENEURSHIP NETWORK

Conflict of Interest

Procedure

Interns must:

- declare any potential, actual or perceived conflicts of interest that exist on becoming employed by The Entrepreneurship Network to management
- declare any potential, actual or perceived conflicts of interest that arise or are likely to arise during internship by The Entrepreneurship Network to management
- avoid being placed in a situation where there is potential, actual or perceived conflict of interest if at all possible

If an intern declares such an interest, The Entrepreneurship Network will review the potential areas of conflict with the intern and mutually agree on practical arrangements to resolve the situation.

Interns must disclose any other internship that might cause a conflict of interest with The Entrepreneurship Network to their manager. Where there are external involvements that do not represent a conflict of interest, these must not affect performance or attendance whilst working at The Entrepreneurship Network. If such involvement does affect performance or attendance it will be considered a conflict of interest.

Failure to declare a potential, actual or perceived conflict of interest or to take remedial action agreed with The Entrepreneurship Network, in a timely manner, may result in performance improvement proceedings including dismissal.

- authorise or be involved in the improper use or disclosure of confidential information;
- during or after their internship without the Employer's written consent, other than as required by law.

‘Confidential information’ includes any information in any form relating to The Entrepreneurship Network and related bodies, clients or businesses, which is not in the public domain.
