Objective:

The Department of Information Technology organized a technical role play competition "CONCEPTUAL PLAY" on 20th April, 2023. The aim of this competition was to imbibe the technical concepts in an interesting way apart from traditional approach.

The students participated in a team of max 5. They showcased the technical concepts like Inheritance, CNN Algorithm, and many more technical concepts by enacting them. It was indeed a great experience as it was a fun way of learning. It was quite an interactive session where students also learnt about team building.

The jury members decided 3 winners.
