## **Computer Engineering**

Introduction:

The industrial visit was conducted on 31st January to Woodmac Group.. The purpose of the visit was to understand the operations of the company and to gain insights into their manufacturing process.

Company Overview:

Woodmac is one of the leading manufacturers & exporters of Hydraulic Hot Presses in India. We have started with excellence in engineering. Our Clients are based in India as well as abroad like Australia, North & South America, Africa, Canada, Europe and Nepal. We have always given priority to customer satisfaction. Therefore, now our focus is on customer delight. We have 2400+ successful installations and 1200+ happy across the globe.

Quality, Innovation & Customer's faith is the pillar in the success story of WOODMAC INDUSTRIES over more than 3 decades. After starting its operations way back in 1970 as a small manufacturing unit, it has grown tremendously over the year. The use of latest trends technology and farsighted business outlook has further helped upward growth of business with time.

In order to ensure strong development of the company and secure long term success, Woodmac is committed to doing business with fairness, honesty and transparency.

Manufacturing Process:

Woodmac Group is a global consulting firm that provides research, analysis, and advisory services in the energy, chemicals, metals, mining, and renewables sectors. It does not engage in manufacturing activities itself.
